REMARKS

The present application is part of the Motorola "bulk filing" applications, as the Examiner is probably already aware. Special IDS procedures have been approved for these applications, and an IDS was filed recently in this case listing several references.

The rejection of Claims 144-153, 158, 178-182, and 233-235 over Guenzer in view of Japan 52-89070 and Japan 01-050575 is traversed. None of the references set forth the claimed, e.g., semiconductor structure claimed herein.

Initially, the combination of Guenzer, JP '070 and JP '575 is insufficient given that, even if they were combinable in the manner suggested, and even if motivation for such
